

This week at DSMFS

BACK TO SCHOOL

It is great to be back to doing what we love, meeting our colleagues and planning for the weeks ahead. We look forward to engaging our children and helping them understand the world around them. So we met, we planned, we set up our classroom and with smiles we welcomed our children back to school. It was awesome seeing our parents again too.

PRIMARY SCHOOL –

Our children spent the week reviewing their assessment papers and some work done last term. Going over a few concepts that required some attention. They spent a lot of time in the lab designing Mother's day cards for their mums. They managed some hard copies too. Made with love for our moms! Thumbs up Sharks and Whales!

PRE SCHOOL- After School Programme ASP

Our pre-schoolers could not be more excited, familiar environment and familiar faces, eager to let teachers know the details of their holiday and picking up right where they left off- singing, drawing, writing, painting- class change for some and new friends too!

After school Programme: ASP

It was harvest time in our garden, some lettuce, our four surviving scallions and some okro too. We had an interesting time nursing our seeds and watching them grow. It has been an exciting session, new project up ahead. Thank you ASP facilitators.
