

This week at DSMFS

PRIMARY SCHOOL – Extra Curricular Activities.

Sewing, Debate and parliament simulation exercises, French, Picture making and Calligraphy. This term we have our hands full. Debate and Parliament have set the pace, debating for and against the motion: **SHOULD THE CANE BE USED IN SCHOOL TO ENFORCE DISCIPLINE!** Was it logos, pathos or ethos? Sharks, Whales and Dolphins delivered a rather interesting argument, and which side won?

PRE SCHOOL- Career Day Role play!

Exploring the interest and passion of our children this week has been fun. Our Career day celebration provided an opportunity to help our children understand the world around them. The career-oriented costumes for the children to play with during the day allowed them to explore different career options. During circle time, we talked about different professions and their role in the community and how school can prepare people for what they want to be when they are older. Thanks to all our moms and dads, this could not have happened without you!

AFTER SCHOOL PROGRAMME (ASP): We spent this week harvesting the last set of vegetables in our garden, we will be clearing our space to make way for our next planting project starting next week. We are looking forward to meeting everyone after school. Coach is ready for Monday and Wednesday Football, Ms Rosemond set for Tuesday and Thursday dancing, and Mr Richard all geared up for gardening!

IN OUR CLASSROOMS

An extra day for reviewing our last set of assessment scripts, and sessions have begun to explore and understand the course content for this term. Ten weeks ahead of us to complete the modules, home works, group project and individual assignment will be coming home.

DOLPHINS (Primary 1 & 2):- This week we continued our work with numbers, exploring place values. Place value is one of the hardest yet most important skills for primary students to master. Place value is the understanding that the same numeral represents different amounts depending on which position it is in. It is more than just knowing how to read big numbers; it is crucial to the learning of whole number operations *and* the most important building block for number sense. We do not want to learn this by rote, we want to understand it, below are links to help our children this weekend

FRENCH: <https://youtu.be/evDuqXTfhkA>

WHALES (Primary 3 & 4) . The whales worked with Personal pronouns during English lessons, and have begun lessons on the Human body systems, to understand that different parts of the human body work interdependently to perform a specific function. Please find some links below to help with revision work this weekend.

PRE-SCHOOL:

This week we began exploring topics on Values and Beliefs! We have been discussing Good manners, being kind to friends and family. Our Teachers have also taken us through being polite and some forms of greetings, and we know not to go to strangers!

In our infant room we are having conversations, a lot of picture reading, and some pouring to help with fine and gross motor development. Our French Teacher visited and it been Ah les crocodiles THIS WEEK!

So this week we have a few lessons to keep us busy this weekend, join us and sing along! https://youtu.be/_pa0cot_2NQ
