

This week at DSMFS

PRIMARY SCHOOL – Extra Curricular Activities.

It is official! If you need help with sewing on a button our Learners in lower primary will be more than happy to help you out. Even better they will teach you if you would want to know how it is done. We know buttons are fasteners but next week we will explore other amazing things to do with buttons! We can't wait to show you!

AFTER SCHOOL PROGRAMME (ASP): We had an awesome warm up session during football understanding what stretching routines does to our muscles. Dance class saw us challenge ourselves with some rather interesting steps. The fun part however is the fact that our children are teaching each other this term. So our routine this term is a compilation of steps from our children. Next week we'll work with an Instrument! We are not telling so ops, you have to wait for our next post! Our beds are ready and seeds have been nursed, looking forward to the rains now!

IN OUR CLASSROOMS: Upper primary spent long periods outdoors this week. When our module requires we spend time outdoors we certainly take advantage of it! We understand that environmental education provides important opportunities for students to become engaged in real world issues that go beyond classroom walls. They can see the relevance of their classroom studies to the complex environmental issues confronting our immediate community!

SHARKS (Primary 6):- Sharks were out this week to observe the community of organisms together with their physical environment, and to understand the types of ecosystem. <https://youtu.be/aIU4hASEj3c>
 English class saw them look at Similes and Metaphors. <https://youtu.be/yDOf299VdU>
 French lessons saw them explore more vocabulary to describe things in the school. <https://youtu.be/qN6qQABYtdg>

WHALES (Primary 3 & 4) :- Whales continued their lesson on the Solar System, this week saw them examine the formation of day and night during space science. Upper Whales spent some time in the garden to observe their Project planting activity (Parts of a plant and Germination) <https://youtu.be/A-xScqCNOGA>
 French saw them explore vocabulary in my school <https://youtu.be/qN6qQABYtdg>
 During English class they explored <https://youtu.be/pULYOrbw0EM>

DOLPHINS (Primary 1 & 2):- Dolphins are studying Habitats, so let join them find out where living things live! <https://youtu.be/byvf7jwdvOI> . English phonics lesson saw them appreciate diagraphs. <https://youtu.be/sUgFyriXw4M> lets help them splat it in this practice game!

PRE-SCHOOL: This week we explore natural things in our environment created by God. We also had a great time observing the rain on Friday!

Our **KINDERGARTNERS** explored the globe understanding that the globe is a representation of the earth, and is made up land and water, with land having special names (continents). Below are links to a few of the topics we were introduced to this week. KG French Song: <https://youtu.be/vLzBeJUuoMc>
 KG French Vocabulary: <https://youtu.be/DZRfZd4wByc> Continent song: <https://youtu.be/K6DSMZ8b3LE>

INFANT AND TODDLER ROOM:

This week we explored with RED in our infant and toddler classroom and we had so much fun engaged in all our red activities
 N1 Colour of the week <https://youtu.be/gtNQnClufBo> N1 & 2 French song: <https://youtu.be/mw5o8qxMOTg>

Our Butterflies explored Green whiles studying the heart shape. This week our older group did some work quantifying numerical symbols whiles our younger group worked on number identification.

N2 Green song <https://youtu.be/SluR6LIxY6U> N2 French-Number song: <https://youtu.be/lsc3qLMaCu8>

N2 French- : <https://youtu.be/eA5jSbKd5cM>
