

This week at DSMFS

UCMAS

Our Kindergarten and Primary level children were engaged in an orientation session of the UCMAS programme. This pilot programme was aimed at orienting the children and to assess their level of readiness towards the teaching and learning of the UCMAS programme. The interactive brain stimulating activity was very exciting and the children demonstrated great enthusiasm during the session! This is aimed at helping all the children in KG and Primary school, work math with great speed and accuracy.

IN OUR CLASSROOMS

This week saw our DOLPHINS, WHALES and SHARKS take their CAT 7 (Mid Term Exam) and CAT 6 (Project Presentation). These are major assessments at the primary school level . Parents are to note that CAT 5,6,7,8 make up 50% of the total grade for each child in every school term. Parents are to ensure CAT project works are brought home to be worked on and subsequently submitted to be marked and graded.

CAT 8 (Project Presentation) will be due July 23rd, 2021.

PRE-SCHOOL:

Our theme this week was special places and special / important people in our community. They went on to discuss how these special people help in our communities (Teacher, Nurse, Police, Farmer, Judge). It was also a fun opportunity discovering what we do in a few special places in the community

KG 1: Continued to practice independent number writing from 1 to 50 (older group) and 1-20 (younger group), and counting through 1-30, they also spent the week working with solids this week and created their own solids/3D shapes.

Rhyme of the week: <https://youtu.be/JFOXViuATHc>

KG2: Our children have been learning to sing the national anthem and discussing living and non living things. They continue to practice solving addition and subtraction problems. They are expanding their tricky word list and reading level 1 and 2 phonetically correct books. Our younger group continue to practice writing on the red and blue lines.
