

This week at DSMFS

SCHOOL EVENT –Open Day (Parent-meet-the-Teacher)

We opened our doors to our parent, and gave them the opportunity to scrutinize work so far with our children. This week our teachers shared academic progress and growth based on observations, assessments, portfolios and assignment. It was an opportunity to mutually agree on strategies and solutions to promote academic and behavioural problems. We appreciate all our parents who made the time to meet the teachers working with their children. To our New parents know that this is a stepping stone to foster improvement with each child.

SCHOOL EVENT : UPCOMING GRADUATION

This week saw our children rehearsing, towards the school's End of Year Awards and Graduation Ceremony.

DOLPHINS (Primary 1 & 2):- This week Dolphins spent math sessions organizing and representing Data in Math class. They also spent this week discussing weather conditions and discussing climate change.

FRENCH: French class saw them discussing profession, pronouns the verb être/avoir

SCIENCE: <https://youtu.be/Um-bo2MWDsQ> <https://youtu.be/QIQ-MEZgRGY>

WHALES (Primary 3 &4): Whales have been actively exploring ways to help save the earth. This week saw the class discussing climate change and global warming. They are learning about the causes and effects of global warming, please click on the link for more insights to their concepts for this week.

SCIENCE: <https://youtu.be/Um-bo2MWDsQ> <https://youtu.be/QIQ-MEZgRGY>

FRENCH: French saw then discussing transportation, inviting and accepting invitations

ENGLISH: English lessons saw them discuss informal letters and critical components of friendly letters.

SHARKS (Primary 6):- Our sharks spent this week Weaving the strands of maths between home and school during their study of Geometric reasoning, a powerful tool in Math. This will help them apply critical thinking, logical argument and spatial reasoning to solve problems and find new relationships.

<https://youtu.be/ZIlyaaRL22A>

Science class saw them discuss skin diseases, and Computing class saw them create online forms.

PRE-SCHOOL:

This week our younger children have been discussing plants for theme week. They have looked at the various parts of a plant, the importance and uses of plants. We have also tried to answer the big question of why the root hides underground. <https://youtu.be/eWodhBfnRto> <https://youtu.be/-LGh7WEZe7k>

KG1 continues to explore fractions, naming and writing them

KG2 also continued with understanding the concept of division as a long addition.
