

# This week at DSMFS

## SCHOOL CELEBRATION – GREEN GHANA DAY

Our children joined in commemorating the Green Ghana Day. They planted a few trees on the compound, specifically fruit trees as advised by our parent. The Green Ghana Day is an initiative of the Ministry of Lands and Natural Resources to plant 5 million trees on June 11<sup>th</sup> 2021. The exercise was aimed at creating the awareness on the effects of climate change and to promote individual effort toward saving the earth. We are also encouraging our children to take active part in saving the earth and have tasked them to plant trees at home where possible.

## EXTRA CURRICULAR (2-3pm)

Sharks and whales have been practicing their penmanship and this week saw them creating the shadow effect on letters constructed. This period is all about transforming their calligraphy into extraordinary 3D letters, and how to make words stand out by adding shadows.

## IN OUR CLASSROOMS:

Possessing the ability to solve math word problem skills makes a huge difference in one's career and life. Hence, it should be considered with seriousness and promoted to generate eagerness and interests within the students to develop math word problem skills, this week has seen Primary school learners try their hands solving series of word problems.

**SHARKS (Primary 6):-** In Math class our primary 6 continue to practice addition, subtraction, division and multiplication word problems. [https://youtu.be/hHOG\\_jVJShE](https://youtu.be/hHOG_jVJShE)

English class continues to study Similes and Metaphors, and working aggressively on subject verb agreement. It has been essays back to back to help our older children organize their thoughts on paper. Links to simile and metaphor <https://youtu.be/6qwUEztyKGE> and

links to paragraphing 1 <https://youtu.be/He9EVLHiJhc> and 2 <https://youtu.be/lb4fcEVMYj4>
