

7th week at DSMFS

20th – 24th June, 2022

Career Day: Children dressed up to depict their future careers in school and were enlightened in their respective fields of work and Role-played, It was full of fun and excitement to watch our young professionals demonstrate a high level of aspiration for their future career.

Our young custom officers, pilots and captains role played and demonstrated a high level of proficiency in their fields, and our young security men and women paraded and were excited to watch and wished the day never came to an end.

Mr Teddy, a patient, was rushed in, it was an emergency, a team of nurses attended to him, checked the heartbeat, temperature and blood pressure. A team of our young surgeons and doctors took over from our young nurses after checking his vitals to perform the necessary operation. Hurray Mr. Teddy's life was saved, yes we did it. Kudos to our young nurses, surgeons and doctors.

Our young lawyers and judges appreciated some terminologies in the court such as objection, accused person, prosecution and the rest. Our young engineers were exposed to some tools and equipment, our young beauticians demonstrated a high level of skills, our only pastor played an effective role in our court proceedings and our young talented footballers demonstrated a high level of skills. It was all about dress up and role play

IN OUR CLASSROOMS: All the levels were seriously writing their mid-term examination (second assessment test)
